EDUCATION

University of California, San Diego   September 2021-June 2025(Expected)
Bachelor of Science in Cognitive Science, Specialization in Machine Learning
Minor in Design

WORK EXPERIENCE

Soft Engineer Intern
Research Institute at T University   June 2023 -August 2023
• Collaborated with a multidisciplinary team to enhance the monitoring device's system by implementing new functionalities. Leveraged Python with the Django framework to seamlessly integrate a server data view, providing insights into system performance for users.
• Demonstrated my proficiency in frontend development by designing and building an intuitive dashboard using Vue.js. The dashboard not only showcased real-time and historical server metrics but also ensured an engaging and visually appealing user experience.
• Assisted in the seamless integration of API endpoints for retrieving server data, enhancing the user interface.

SELECTED PROJECTS

Graduates Income Statistic Analysis   August 2022 -September 2022
• Utilized R to dissect and uncover the multifaceted factors influencing the income outcomes of graduates, resulting in valuable insights that informed the report's conclusions.
• Transformed complex statistical findings into easily digestible insights by creating interactive dashboards with Shiny, providing a visually intuitive way to engage with the data.
• Recognized for project excellence with a perfect score.

Too Much Infection, iJEM   May 2020 -March 2021
• Led website development utilizing HTML, CSS, and JavaScript to showcase groundbreaking synthetic biology research. Translated complex biological concepts into engaging visuals and responsive infographics, ensuring cross-device compatibility.
• Awarded the gold medal and the Inclusivity award at iJEM 2020.

EXTRACURRICULAR

Lalaland Theatre Troupe, Vice President
University of California, San Diego   March 2022 -Present
• Organized five successful theatre festivals with an audience of 300 attendees each.
• Designed captivating flyers and promotional materials for each show.

Race To Cure Foundation, CEO
San Diego   May 2018 -August 2020
• Collaborated with top-performing athletes from US and China National Swimmers.
• Aided for medicine research, active sports, and healthy lifestyles.
• Co-founded a non-profit foundation that raised over $150,000
